

# **“Finish” Command**

**TPL Dog Training**

We recommend to finish each exercise with a “FINISHING COMMAND” so your dog knows immediately that he has performed the action you have requested of him.

Remember TIMING is very important.

Praise your dog immediately he has completed the task asked of him.

I use the word “YES” as a finishing command but you can use any word you like as long as you are consistent and use the same word each time.
